Established joint venture companies

2018

CHAIRMAN'S STATEMENT

The state of Johor is moving with great resolve and making significant strides in the quest of development.

The Pengerang Integrated Petroleum Complex (PIPC) has brought on lucrative economic spillovers, however, the benefits should be reaped cautiously to spur further growth. In this effort, I am very pleased that PDT Oil and Gas Services Sdn Bhd has responded positively while remaining at the forefront of Johor's mission for sustainable and robust development, both economically and socially.

The company will continue leveraging on the state's competitive advantage to achieve our vision of taking on a lead role as the service provider of choice in the oil and gas industry. This is a part of our optimized efforts to reinforce and intensify Johor's steady economic and development trajectory.

Guided by our principles of enthusiasm, quality and cooperation, we are working hard to meet the expectations of our partners, shareholders and stakeholders, and gain respect from our peers. We look forward to higher returns and revenue increase on a yearly basis in order to attain sustainable growth for the state of Johor.

Focusing on the main development tracks, Johor must be constant in creating a favorable ecosystem as an important driver for the diverse refining and downstream industry sectors.

Despite the weight and volume of our tasks, the need to development domestic human capital remains on top of our mind. In this context, I believe that providing a platform for reskilling and skills development is one of the most important determinants of Johor's economic health and success.

Moving forward, we will continue to commit and strengthen the environment to facilitate lifelong learning and career progression in view of the rapid advancements and growing trends such as artificial intelligence and automation.

On behalf of the Board, I would like to extend my utmost and sincere appreciation to all the members of the Board, the leadership team and the staff members who push on to build and reinforce our company with their hard work, commitment and pursuit of excellence.

YAB. DATO' Ir. HASNI MOHAMMAD
CHAIRMAN | PDT OIL & GAS SERVICES SDN BHD

GROUP
PRESIDENT'S
FOREWORDS

First and foremost, I would like to thank YAB Dato' Ir. Hasni Mohammad, as the Menteri Besar of Johor and Chairman of PDT Oil & Gas Services, for his continuous support towards our concerted efforts to penetrate the oil and gas industry. We believe that his vision and commitment will pave the path to a brighter and stronger future for PDT as an organization as well as a state GLC.

We have been formalizing our strategy since the inception of the organization. Our mission is straightforward: customer-centricity. Our culture and business ethics are guided by a single key foundation - humility; the very essence that fuels our every motion and nature of choice at heart of everything we do.

In today's complex business environment, we are determined to optimize our human capital potential, the most valuable capital in our company.

Our high performance culture is positioned to consistently uphold our values and be a driving force to provide better services in the oil and gas industry. Most importantly, our commitment to serve the state's best interests is always a top priority while also ensuring long-term benefits of our partners' profitability.

We will continue our journey to strengthen our talent pool to contribute positively to the state and the economic wellbeing of our people, stakeholders, investors and partners through innovative approaches.

We are resolute in our pursuit to improve our organization's health, safety, security and environment (HSSE). This demonstrates our acknowledgement that building a deeply embedded HSSE culture is paramount to our success.

My gratitude to all the PDT Oil & Gas Services employees and partners for their hard work and dedication. I believe that our striving and committed employees are the best illustration of the organization's ethos of persistent determination to succeed.

My sincere appreciation to our stakeholders, investors, customers and partners for their ongoing support thus far and for the confidence they have in our future. With that foundation, we are well positioned to navigate the challenges and deliver stellar results in the long run.

LUKMAN BIN ABU BAKAR
PRESIDENT | PDT OIL & GAS SERVICES SDN BHD

TECHNIQUES

PDT TECHNIQUES SDN BHD

PDT Techniques, a subsidiary of Permodalan Darul Ta'zim, a wholly-owned Johor State Government company specializes in providing inspection consulting services, non-destructive testing, corrosion engineering and asset integrity management services to the oil and gas, petrochemical, utility, manufacturing and construction industries throughout Malaysia and abroad.

As our reputation amongst clients and quality supplier of NDT and Inspection services has grown reliable, we have added to the range of services we have to offer to our customers. PDT Techniques has embarked on a plan to expand our geographic area of operation and extend the services available to take advantage of new business opportunities and the specific needs of existing and new customers.

PDT ASCEND SDN BHD

PDT Ascend Sdn Bhd delivers integrated heavy lift and haulage services for the construction and transport of large and heavy structures for the offshore market.

PDT Ascend was established in 2018 by PDT Oil & Gas Services Sdn. Bhd. (a wholly-owned company by the Johor State Government) and Tiong Woon Crane & Transport (M) Sdn. Bhd. (a wholly-owned subsidiary under Tiong Woon Corporation Holding Ltd). Founded in 1978 and listed in the main board of the Singapore Stock Exchange since 1999, Tiong Woon has establishments in 10 countries within the South-east Asia region and Saudi Arabia, amassing a fleet of more than 500 heavy lifting machineries over 41 years.

PDT Ascend thrives to be the most customer-centric company by offering great finesse in the operation and maintenance services of the heavy machinery industry throughout the region. Traversing more than just a service provider, our company aims to foster the local participation and acts as a catalyst in enhancing the livelihood of the future generation in the State of Johor.

We also possess our own fleet of heavy lift and haulage equipment, tugboats and barges to provide a wide spectrum of integrated services for clients who are mainly involved in the Refinery and Petrochemical Integrated Development (RAPID) Project in Pengerang, Johor.

PDT SCAFFOLD ENGINEERING SDN BHD

Subsidiary to Permodalan Darul Ta'zim, a wholly company by Johor State Government, PDT Scaffold has grown from strength-to-strength in the industry, both organically and through strategic alliances with experience technology partner.

Established in 29 November 2018, PDT Scaffolding Engineering Sdn Bhd is a leading scaffold provider of choice to the upstream and downstream sectors in the oil, gas and petrochemical industry.

We pride ourselves as a global player given the company's joint venture background with the industry powerhouses.

Having well established facilities in Refinery and Petrochemical Integrated Development (RAPID) in Pengerang, Johor gives the strategic locations for us. It is enable the company to operate from a position of strength in tapping synergistic benefits in readily serving a diverse range of customers that include multinational oil majors, national oil companies as weel as multinational engineering and services providers located throughout the world.

PDT Scaffolding is registered as a vendor to Petronas on the provision of manpower, materials, equipment, services and facilities for scaffolding services and inspection.

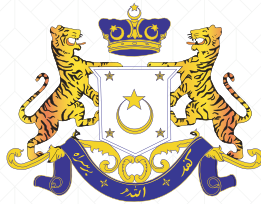

PDT TRAINING SDN BHD

PDT TRAINING SDN BHD was incorporated on November 2018. It is a government-owned company and a subsidiary under Permodalan Darul Ta'zim (PDT).

Implementing High Performance Development Program to enhance technical expertise, management skills and exposure to mega projects in Johor to the Johor Contractors.
